

Tonight's Special is...

Kansas City Pork Wild Wings

Are you looking for a fresh alternative to traditional appetizers during the big game? Consider Kansas City Pork Wild Wings from FARMLAND. Developed to be a fun finger food or simple entrée, the meaty “wings” are designed to maximize operator usage and revenue. Made from fresh, tender pork shanks, they come fully cooked in three 12-piece bags, 36 pieces per case and about 4oz. each. They can be grilled, fried or baked according to cooking specification and desired presentation. All you need to do is heat them to serving temperature and add your favorite signature sauce.

Try this Hot Honey BBQ sauce made with Palmer’s private label Louisiana cayenne pepper hot sauce. Even though pigs still don’t fly, I guarantee you gonna’ love these hog wings.
