Chemical Services

Perfectly Portioned

Don't waste money by over using chemicals. Try out our wall dispensers that will give you the right amount of product every time.

Lease to Own

Our dish washing machines are lease to own which means you ultimately get to own a high quality, dependable machine. After 5 years, your machine costs you just one dollar to own.

Customer Care

If you have an emergency, let us know! We will be there to help you 24 hours a day, seven days a week. We are committed to taking care of you and our products any time of the day.

Specialized Products

Western and Upstate New York has some of the "hardest" water in the country. We sell products that were developed specifically for this area and are guaranteed to work in your machines and outperform your current products.

Experienced Professionals

Don't waste time searching for the problem with your machine. Our beverage and chemical experts on site have over 25 years of service in this industry. Trust them to serve you in a prompt, professional and helpful way.

Environmentally Friendly Products

Chemicals can be harmful to the environment if not disposed of properly. To counter this, we offer varying types of sustainable products to meet all of your chemical needs.

Personal Touch

We prefer to deal with other companies who have that personal touch and will back up their products. If you have any questions or concerns about products you are using let us know and we will find a solution to that problem direct from the manufacturer.

"Both beverage and chemical are going very well. Everyone we've spoken to is very helpful. If we have a problem and they can't get here right away, they're here within 24 hours, and always professional and polite. We have been a long time customer with Palmer's. We compared prices with Eco Lab a few years ago but the service as well as quality of product from Palmer's was better. We are very happy with the services provided and we plan to stay with Palmers." -Chef, Tillman's Village Inn
